Project Pipeline

Lalit Bangad | September 29, 2021

Phase I *(By Sept End)*	**Phase II** *(By Oct end)*	**Phase III** *(By Nov end)*
1	**2**	**3**

Phase I

1. Implemented the UI for the chrome extension.
2. Integrate the Chrome storage API to store and process copied text.
3. Tooltip implementation for the text copied to the clipboard.
4. Implementing copy functionality from clipboard to anywhere on the PC.
5. Editing the item on the clipboard.

Phase II

1. Multiple browser support.
2. Exporting to doc, csv formats.
3. Image copying to clipboard.
4. Searching across clipboard

Phase III

1. Backup to cloud and syncing across multiple devices.
2. Incorporating copy across the platofrm, ie, across OS level (copying anywhere and i t should be visible in the extension.
